Most of the Clerks of Petty Sessions in the Country Towns are appointed Agents.

The business of this Company is threefold.—

First—Life Insurance on single lives, joint lives, and first of two lives.

Second—Immediate, Deferred, and Reversionary Annuities.

Third—Endowments for Children.

INSURANCE BRANCH.

The payment of a small Annual Subscription will enable a person to provide for his family after his death; or a person interested in the life of another, may provide against loss arising from his death for example:—Partners in business, who may apprehend the withdrawal of a portion of their capital on the death of either, may provide against the same by jointly insuring their lives. Policies may be effected on the lives of husband and wife, payable to the survivor on the death of either. Policies of Insurance are valuable as collateral security for loans. This Company will lend money on security of the Policies issued from this Office.

ANNUITY BRANCH.

Immediate Annuities to any amount may be purchased at this Office, on reasonable terms; and Deferred Annuities, or Annuities payable in old age, may be purchased by small contributions, payable quarterly, half-yearly, or yearly. The comfort and independence enjoyed by annuitants cannot fail to render these Annuities very desirable to those who wish to provide for the future out of the superabundance of the present; and as the Deferred Annuities are protected from process of Law and Insolvency by the Act of Council, 14 Victoria, No. 11, they have all the advantages of Government Pensions. Reversionary Annuities, or Annuities commencing on the death of one person, and payable during the life of another, are well adapted for providing for Widows, &c. These may be purchased by small quarterly payments.

ENDOWMENT BRANCH.

Endowments, or sums payable at the ages of 14, 20, and 21, are purchased by small payments, and are eminently calculated to confer great benefits on the parties entitled to receive them, for they are payable at that critical age, when the start in life begins, which must influence the whole future career.

Females, whether married or single, are eligible for any of the above branches.

The Profits are divided among the Members every five years.

Forms of Proposal, and all needful information, may be obtained at the Offices of the Society, from 10 till 4 daily.

MR. C. M. CLARK, in returning his sincere thanks for the extensive patronage he has received from the inhabitants of Sydney during the last 12 months, begs to inform his friends and the public generally that he still continues to give instructions in Dancing in all its branches. It would be needless to enumerate all the acquirements he can teach in the above art, he would merely beg leave to warn those who wish *in good earnest* to learn dancing to avoid placing themselves under the tuition and instructions of a certain number of empty professors and mere pretenders, who mislead them in the very rudiments of their positions, &c., thus making them completely *gauche* and awkward in a ball-room.

THE GRAND ANNUAL EASTER FETE!
MONDAY, APRIL 21, 1851.

ZOOLOGICAL GARDENS,
SIR JOSEPH BANKS HOTEL,
BOTANY BAY.

MESSRS. BEAUMONT AND WALLER respectfully announce to their patrons and the public, that the arrangements are now perfected, by which they are enabled to invite them to what it is hoped will prove A DAY OF UNQUALIFIED PLEASURE AND AMUSEMENT. By the subjoined Programme it will be seen that the nature and diversity of the Entertainments are such as must meet UNIVERSAL APPROBATION, and afford to every class of visitors materials from which the day's amusement may be secured.

The ordinary attractions of the Establishment are now generally known and (thanks to the discrimination and good taste of an enlightened public) generally appreciated. The MAGNIFICENT PROSPECT, the DELIGHTFUL GARDENS, the EXTENSIVE COLLECTION of the ORNITHOLOGY and ZOOLOGY of Australasia, &c., &c., out of doors, and the assiduous attention by which the wants of visitors are ever anticipated at the Hotel, are too much matter of notoriety to need particularising, but occasions such as this, "THE GREAT HOLIDAY OF THE YEAR," when (as has been the case at former fetes,) THOUSANDS MAY BE EXPECTED TO ASSEMBLE, calls for something more animating and gay, in the pleasures derived from which all may join at once. The proprietors have, therefore, much pleasure in informing the public that

The performances of this lady have been hailed with the greatest applause, by a most respectable audience, on each of the occasions she has appeared in the colony.

The young Australian, a native of Parramatta, pupil of Mr. Henry Burton. The DARING FEATS OF RIDING of this youth must be seen to be appreciated.

Master Walter Broadbent, the Flying Voltiguer, in his daring exploits on a single horse, as the INDIAN SPRINGER.

Mr. Henry Burton's pupils in their new style of GYMNASTICS.

It is necessary to observe that for all objects which require a high degree of finish in the details, the pictures on paper will never be able to support a comparison with those on the metallic plates used by the proprietor. HOLLOWAY'S PILLS AND OINTMENT.

THE Wholesale Agent for the sale of the above Medicines begs to call the attention of the public to the following case of cure of a malady to which the inhabitants of this colony seem peculiarly liable, namely—the loss of their fingers from poisonous wounds:—

To Mr. S. Emanuel, Agent for Holloway's Pills and Ointment, Goulburn.

Sir,—I beg to inform you, for the benefit of the public, of the following cure effected on me by the use of the above Pills and Ointment. I was killing a pig and was bit in the finger, and was very bad, and under four doctors, who wanted to cut my hand off; and when I would not consent, I could get no cure. I was advised to use Holloway's Pills and Ointment, and am happy to say, after using them for one month, I am entirely cured.

CHARLES HUGGINS.

CAUTION!—None are Genuine unless the words "Holloway's Pills and Ointment, London," are engraved on the Government Stamp, pasted on every Pot and Box, with the same words woven in the water mark of the books of direction wrapped round the medicines.

Should unprincipled venders recommend parties asking for Holloway's Pills and Ointment not to buy them, but to take something else in their stead, they do so only for the purpose of getting a greater profit by what they wish them to purchase.

Departure of the Cape of Good Hope Mails from Plymouth.—Monday witnessed the dawning of a new era to this important port, and we have too high an opinion of the enterprising spirits of the inhabitants of Plymouth, Devonport, and Stonehouse (consisting of upwards of 100,000,) to suppose for one moment that they are not alive to the boon which has been conferred upon their district, in its selection by the Admiralty authorities, at the particular suggestion of James Laming, Esq., the managing director of the Company which has taken the contract to convey the mails and passengers to Madeira, the Cape de Verd Islands, and the Cape of Good Hope, as the point from which a monthly departure will take place to the ports, and in time we have every reason to believe the communication will be extended to the Mauritius, Ceylon, India, China, New South Wales, and New Zealand. The mails were embarked on board the Bosphorus at noon of Monday, and placed in charge of Commander Wolrige, R.N. A procession of the local authorities of the three towns was formed, and were present on board the ship at the time of the embarkation, when congratulation speeches were delivered. The ship, however, was detained from proceeding until Wednesday. During Monday afternoon a deputation from Plymouth Chamber of Commerce, headed by the Right Hon. the Earl of Morley, waited upon the directors, Mr. Laming, and Mr. Fox, M.P. for Longford, to welcome them at the Port, and to assure them of their hearty interest, co-operation, and support in the service; and in the evening about 100 of the principal gentlemen of the three towns assembled at the Royal Hotel, and entertained Mr. Laming and Mr. Fox in a most handsome and gratifying manner.—*Atlas for India, December 24.*

SYDNEY DEMOCRACY.

The very long and elaborate debate elicited by the Electoral Bill would seem at first sight, as reported in our columns, to have been a misapplication of time and strength; for it appears to have turned almost entirely upon questions of detail, which the House was not called upon to discuss at all, because they could be settled only in Committee. Scarcely any part of the measure was touched upon but that which related to the local distribution of members; and this again resolved itself into the question whether the number apportioned to Sydney was or was not sufficient, regard being had to its relative population, wealth, and political position.

But although the debate *seems* to have been occupied with details, it was in reality directed to those great principles by which the whole civilised world has of late years been more than usually agitated—the principles of democracy and conservatism. The speakers who contended that population alone should be the basis of representation, did so with the view of enlarging the powers of the lower orders of society, a consummation which they professed to believe would be right in the abstract, and wholesome in practice. Those of them who contended that wealth and intelligence ought to be taken into consideration as important elements of the commonwealth, here as well as elsewhere, were of course influenced by opposite views, believing that any considerable extension of democratic power in the Legislative Council would be injurious to the real interests of the community. Some of these conservative gentlemen expressed an opinion that amongst the inhabitants of Sydney, or certain classes of them, the democratic spirit was greatly on the increase, and ought rather to be checked than encouraged; and hence they strenuously opposed any increase in the number of metropolitan members proposed by the Bill.

Whether democracy is or is not on the increase in this city, one thing is certain—it has of late become more noisy and blustering. Circumstances have occurred to stir up its energies, to stimulate its aspirations, to embolden its hopes, and to give utterance to its feelings. But for these circumstances, we believe that democracy, in the objectionable sense of the word, would in this country have long contented itself with its theories and its dreams, without attempting to disturb the public peace. Here there is nothing to feed its discontent, nothing to provoke its wrath, or to supply it with themes for declamation. We have no national debt, no grinding taxation. We have no overgrown wealth to excite its envy, no abject poverty to call forth its murmurs. We have perfect civil and religious freedom—or in whatever particulars our civil rights are as yet curtailed, they affect, not sections, but the whole community alike. The political franchise has been so widely extended, that all but universal household suffrage will henceforth prevail. Our labouring classes have full employment, high wages, and every reasonable comfort. Many of them are saving money; others have built themselves houses; and all have a fair chance, with industry and prudence, of accumulating property, and arriving at independence.

Under these circumstances, the democratic elements of our society would have remained dormant, had they not been roused into action by fiery demagogues, who have purposes of their own to serve by popular agitation. We would fain hope, however, and cannot help believing, that, after all, the great bulk of our populace are contented with their lot, and stand aloof from the fomenters of strife and discord. Mr. Wentworth alludes, with evident uneasiness, to the large mob meetings which have from time to time assembled within the city, and rent the air with their tumultuous shouts. But may we not presume that of the attendants on these occasions many were mere spectators, drawn thither by curiosity, but having no real sympathy with the malcontent leaders, whose artifices they understood, and whose ulterior objects they despised?

The honorable and learned member for Sydney is altogether too sweeping in his assumptions on this head, and in the conclusions he draws from them. "In Sydney, as was well known to them all," he is reported to have said, "it was easy to get a meeting of 4000 or 5000 people together under the democratic and socialist principles which were now so common. They had seen these meetings held; they had heard the improper language used at them. *Such a city was hardly worthy of representation at all.*"

We abhor, quite as much as Mr. Wentworth, the democratic and socialist principles he refers to; but we are not prepared to think that, amongst a well-paid, a well-fed, and a well-clothed populace like ours, they are so "common" as he supposes. We condemn, as heartily as he does, the improper language spoken at some late public meetings; but we must not forget that it was spoken by individual spouters, for whose seditious ravings it would be unfair to hold their auditories responsible. And to assert, from such premises, that Sydney is hardly worthy of representation at all, is to do violence to common sense. We have not a doubt, that if the adult inhabitants of our metropolis were polled as to the sense they entertain of the "democratic and socialist principles," and the "improper language," of which their honorable and learned representative makes so extravagant a use, full four-fifths of them would denounce both the one and the other.

But the great misfortune of our city is, that the right-minded portion of its people, who constitute the majority, are less active in the discharge of their political duties than its wrong-minded minority. Such, at least, has been the case hitherto. Let us hope that the more stirring times upon which we have now fallen will effect a change for the better. The extension of the franchise ought of itself to convince our intelligent and respectable fellow-citizens—our professional men, our merchants, shopkeepers, and master tradesmen—that their country has now stronger claims upon them than ever. If democracy is indeed on the increase—if the foul principles of communism, which would overthrow the foundations of social order, and parcel out the property of the country share and share alike, are indeed making headway amongst us—upon *them* devolves the duty of making a stand in their common defence. Let them continue, as heretofore, to stick to their offices and shops when they ought to be at the hustings or the poll, and with *them* will rest all the responsibility and the blame for whatever mischiefs may arise from democratic ascendancy. Let them, on the other hand, be true to their obligations as citizens, and to their own interests as the heads of families and as men of substance; let them *combine* for the maintenance of order, and exert their united influence for the return of good men and true to represent their city in the Legislature; and the apostles of democracy will labour in vain, and spend their breath and ink for nought.

LAW INTELLIGENCE.

SUPREME COURT.—Thursday.

Before the Full Court.

THE QUEEN ON THE PROSECUTION OF THURLOW v. KEMP AND ANOTHER.

Mr. Darvall, on the part of the defendants, moved an affidavit for the trial of the issue herein by a special jury of twelve persons. The motion was unopposed, and the Court ordered that the order for the special jury should go, and that the case should be tried on Friday, the 6th of June next, in the Jury Court, in King-street.

LENEHAN v. PLANK.

Mr. Meymott, on the part of the defendant, moved for judgment as in case of nonsuit.

M'CREERY v. HICKEY.

Mr. Darvall was heard in reply: The principal ground upon which it is sought to set aside the award, is, that it is not final. The arbitrator awards costs in two actions, in one in which issue was joined, in the other in which issue was not joined. The arbitrator had power to enter up judgment, or judgment as in case of a nonsuit, in either of the said actions, and he acted up to his instructions in entering up judgment in one action, evidently not wishing to put the parties to the expense of having judgment entered up in the other. The arbitrator made a note of the consent of the parties to authorise him to determine the tenancy, but which determination of tenancy the plaintiff says now, was not within the power of the arbitrator, and therefore the award, he urges, falls to the ground. Mr. Darvall then went carefully through the cases cited by the plaintiff's counsel, and pointed out their inapplicability to the present case. He then urged that the defendant was entitled to his costs, as he had been dragged into this Court that the award might be got rid of contrary to good faith.

The Chief Justice: The plaintiff, in an action in which the two Hickeys are defendants, has, after a lapse of time, put a replication on the file. The action is brought by plaintiff against the two Hickeys, on a promissory note. Another action had been brought by one of the Hickeys against M'Creery, for goods sold and delivered, and amongst other thing, for rent. In the latter action issue was joined, in the former, it was not. The parties agreed to refer the two actions and a supposed eviction. The arbitrator made his award, which was not taken up for a long time after it was made. Then a replication is put on the file, in one of the actions referred to the arbitrator, and Mr. Darvall applies to have it taken off, and has urged upon the Court that the plaintiff's going on with the action on the note was against good faith. The plaintiff says the award is bad, and is no bar to the action on the note. I think otherwise; and that the award is good, and is a bar. The sum of £11 12s. 7d., awarded by the arbitrator, is in satisfaction of the promissory note. In accordance with Jackson v. Yabsley, S. B. and Ald. 848, I think the award is good. And if this action be abandoned, and another brought on the promissory note, a plea of the award would be good plea in bar to such action. Hawkins v. Coldclough, 1 Bunn, 274, is in point. A difficulty has arisen in the award, the arbitrator has, by his award, put an end to the tenancy. If the parties agreed that he should decide on other matters, and he did so decide, they have only themselves to blame; and such consent having been given by the plaintiff, he can hardly say it was beyond the power of the arbitrator, but if it was beyond his power that part of the award may be void. But it has been suggested by Mr. Justice Dickinson that the determination of the tenancy was not a matter in difference: I confess I do not see it. But if I did, I should not say the award was therefore void. This part of the award may be void, but that would not vitiate the remainder. The award as to this part was that the tenancy should terminate on the day of the date of the award. The award is made within the time for making it, and the parties cannot now take advantage of anything in the award not having been enforced, because the award was not taken up till some months after it was ready. The award is void as to the tenancy, but good in every other respect. And the plaintiff having proceeded on the note, in violation of the award and of his agreement to refer, must pay the costs of his demerits, notwithstanding he was advised by his counsel to proceed. I think these costs, however, should be limited to the costs in chambers, and the costs of the argument before the Court should be borne by each party.

Mr. Justice Dickinson: I regret I cannot concur with the other members of the Court. There is no law more uncertain than the law of awards. It is apparent on the face of the award that there has been an adjudication of something which is not certain and final. A disputed tenancy came before the arbitrator—he had no power to entertain it, but in his award he says that the tenancy shall be determined on a certain day, and for this reason I think the award bad.

Mr. Justice Therry: The question of determination of tenancy appears to have been determined by the arbitrator with the consent of both parties; it was not a ground of difference to be referred. The question of illegal eviction has nothing to do with the determination of the tenancy, and the latter not being a matter of difference, that part of the award is bad, though I think the remainder of the award is good.

Mr. Justice Dickinson and Mr. Justice Therry concurred with His Honor the Chief Justice on the question of costs.

IN RE DRISCOLL.

Before this case was called on, His Honor the Chief Justice said, in reference to the application for the writ of mandamus against the Commissioner of the Court of Requests, that what he (the Chief Justice) had been reported to have stated was "that a class of persons without either character or responsibility had been allowed to act as advocates in the Court of Requests," and that such statement was made by him upon the supposition that the allegations of Mr. Driscoll, made at the time of Mr. Driscoll's application for the rule, were correct, but upon referring to his affidavit there was nothing to support such a statement.

Mr. Justice Therry also stated that the expressions attributed to him with regard to the alleged malpractices in the Court of Requests, were merely based on the assumption that Mr. Driscoll's statements were true, and were not intended to convey any censure upon the Commissioner or upon the practice of his Court.

Mr. Broadhurst, on the part of the Commissioner, accepted the explanations given.

Mr. Driscoll, in person, moved that the rule be made absolute.

Mr. Broadhurst, for the Commissioner, showed cause. He commented upon the affidavit of Mr. Driscoll, upon which the rule had been granted, and entered into a long argument on the construction of 45th, 46th, and 47th sections of the 6th Vic. No. 15. He also read affidavits, showing that the practice of the Court of Requests under the present Commissioner was the same as that of his predecessors.

The affidavits of the Registrar, Mr. Maxwell, and of the chief clerk, Mr. Duguid, showed that attorneys and agents were only admitted upon sufferance in the £10 court, when objections were waived by the parties, or where an unavoidable necessity, or good and sufficient cause, was shown,—that during the administration of justice there by the present Commissioner's two predecessors, persons not attorneys were habitually permitted to practice as agents in the £10 jurisdiction, although they were other than the *bonâ fide* clerks or servants of suitors,—that these persons regularly practised as agents and advocates—that the present Commissioner followed the practice of his predecessors, and that he never refused to hear Mr. Driscoll or any other person, whether attorney or agent, if no objection were raised, or if circumstances required it.

The Chief Justice: The question for the Court to determine is this, whether any person can avail himself of any other professional assistance in the jurisdiction under £10 in the Court of Requests, and I am of opinion that he cannot avail himself of any other. It was contemplated that attorneys should practise by the 46th section, and in connexion with attorneys the words "such professional assistance," is used, but the same words are used in the 45th section, and they must have the same meaning and interpretation; the attorneys practising must be enrolled, by the provisions of the 47th section. Can then, any other class besides attorneys enrolled appear in the £10 jurisdiction? and I have already said I think they cannot. Under the 46th section the words "professional assistance," can only refer to the assistance of members of the legal profession. As defined by the 45th section the term "professional assistance" has a legislative meaning; and going back to the 45th section it is clear that professional assistance there means what it does in the 46th. Professional assistance means the assistance of attorneys, but they must be enrolled in conformity with the 47th section.

Mr. Justice Dickinson: I am of the same opinion; by professional assistance is meant that legal assistance which a suitor is entitled to have; such assistance to be assistance by an attorney of the Supreme Court properly enrolled in the Court of Requests.

Mr. Justice Therry: I concur in the opinion of the rest of the Court. I may mention that in the observations made by Mr. Driscoll, on his application for the rule, he expressly acquitted the Commissioner of all knowledge or suspicion of the malpractices which he alleged existed in his Court; and I can testify to the efficiency and satisfactory administration of justice by the present Commissioner.

Mr. Driscoll begged to repeat the disclaimer he had already made.

The rule nisi was discharged by consent, with the understanding that Mr. Driscoll, being already on the roll of practitioners in the Court, no further enrolment was necessary to enable him to practice in the £10 jurisdiction.

IN THE GOODS AND CHATTELS OF ANDREW AITKIN.

Mr. Wrixon moved that letters of administration be granted to the widow of the deceased. Ordered.

IN THE ESTATE OF JOHN THOMAS WILSON.

Mr. Broadhurst, on the part of Mr. B. C. Rodd, moved, on affidavits, for a rule nisi, calling upon John Campbell, Saul Lyons, Samuel Peek, Robert Cooper, George Cavenagh, Joseph Roberts, Francis Mitchell, and Alexander Fotheringham, to show cause why they, or some one of them, should not render an account of their said trust, and of all moneys received by them.

The Court granted the rule, returnable on Thursday next.

BINNS v. BRIERLY.

Mr. Broadhurst, on the part of the plaintiff, moved for a rule nisi, calling upon the defendant to show cause why it should not be referred to the Prothonotary to tax the bill of costs of the plaintiff, in the matter of the reference to arbitration between the plaintiff and the defendant, and the award made therein, on the ground that by the agreement of reference the costs were to abide the event, and that the said award was in favour of the plaintiff; and on the ground that the Prothonotary is the proper officer to tax the said costs, and that he had declined to do so.

The Court granted a rule nisi, returnable on Wednesday next.

THE WILL OF THE LATE MR. S. TERRY.

In the case of Hosking v. Terry and others, which was an appeal from the decison of the Primary Judge (Mr. Justice Therry), the Supreme Court gave judgment on Tuesday. The decision involves a large amount of property; indeed, the bulk of the real estate of the late Mr. Samuel Terry, the contest being between Mrs. Hosking claiming as heiress-at-law of the testator, and the devisees claiming under the second codicil of the testator's will. Mr. Justice Therry, in a judgment fully reported in a recent number of the *Herald*, decided in favour of the devisees, and the full Court, after hearing counsel and taking a few days to consider the arguments, confirmed Mr. Justice Therry's decision in favour of the devisees. The question of costs, both of the hearing before the Primary Judge, and of the appeal, to be spoken to on Saturday.

Shoplifting.—On Thursday evening a piece containing about thirty-four yards of twilled coburg cloth was stolen from the shop of Messrs. Rush and Merrington, Pitt-street. The circumstance was reported to the police, with the description of two men who were suspected of having committed the theft. In the course of the night Sergeant M'Gee apprehended two men whose appearance corresponded with the description so given, but they were yesterday discharged for want of identification.

DOMESTIC INTELLIGENCE.

MULTUM IN PARVO.

(From late Australasian papers.)

The Legislative Council of Van Diemen's Land is to meet next week for the consideration of the Electoral Bill. The late Mr. Bicheno, by a clause in his will, directed that his large and valuable library, consisting of 1900 volumes, should be offered to the Tasmanian Public Library, or to the Mechanics' Institute, on condition of the payment to his executors of the sum of £300, which was considered to be not more than one-half of their present value, and not one-fourth of the sum which they cost him. The committee of the library were appealing to the public for the necessary funds.—A quantity of wheat shipped by the manager of the South Australian Company to London had brought 52s. per quarter — three shillings above the highest quotation of the day.—A coal mine has been opened at Newtown, near Hobart Town; the produce is declared to be of a very good description.—There are in Melbourne, at the present time, two steam mills, seven breweries, one boiling down establishment, one blacking manufactory, three iron and two brass foundries.—Harris, the executioner, who is in gaol at Melbourne for some offence, has petitioned for a mitigation of punishment, on the ground that during the time he has been employed as public executioner, he occasionally occupied his leisure hours in acting as public flogger, and that in his capacity of flagellator he had always succeeded in giving "universal satisfaction."—The sentence inflicted on Mr. O'Donohoe has just expired. He arrived in Launceston by the Government steamer. On his reaching the Prisoners' Barracks, whither he was marched with a gang of felons, he was required to give a pledge that he would not attempt to escape from the colony. Having signed a document to this effect, a ticket-of-leave and instructions to reside in the Oatlands district were given to him.—The *Register* gives the following account of exports of copper from South Australia during the year, 1850:—To Singapore, 722 tons 4 cwt. 1 qr. 27 lbs., value, £54,166 16s. 10d.; England, 541 tons 13 cwt. 1 qr. 9 lbs.—£40,624 19s. 10d.; Calcutta, 274 tons—£20,550; Bombay, 247 tons 2 qrs. 15 lbs.—£18,527 7s. 6d.; Madras, 114 tons 8 cwt. 1 qr. 9 lbs.—£8,581 4s.; Batavia, 20 tons—£1500 0s. 9d.; Mauritius, 6 tons 3 qrs. 2 lbs.—£481 17s. 9d.; the neighbouring colonies, principally for transhipment, 278 tons 15 cwt. 2 qrs.—£20,908 2s. 4d.: Totals—2,204 tons 10 cwt. 3 qrs. 4 lbs.; value, £165,300 8s. 9d.—The estate of Glendhu (V.D.L.), 1400 acres, the property of Mr. James Clark, was sold by Mr. Lowes to Mr. P. Whyte for £2500. Also, on the same day, 1960 acres of land, Russell's Falls, New Norfolk, to W. J. T. Clarke, Esq., at 6s. per acre.—A piece of land on the "Eastern Hill" has been secured for a Botanical Garden at Geelong.—A Horticultural Society has been established at Otago, under the presidency of Mr. Justice Stephen.

ABSTRACT OF SALES BY AUCTION THIS DAY.

Mr. G. A. Lloyd.—At the City Mart, at 11 o'clock, Blasting Powder, Candle Wick, Alkali, Epsom Salts.

Mr. R. Fawcett.—At his Rooms, at half-past 10 o'clock, Damaged Flannels, Colonial Cheeses; at 11 o'clock, Hatter's Materials, Damaged Grey Sheeting, Navy Blue Prints, Tick, Counterpanes, and Flannels, also, Caps, Hats, Slops, &c.

Mr. S. Lyons.—At his Mart, at 11 o'clock, Port Phillip Beef, Cod Fish.

Mr. Stewart.—At the Horse Bazaar, 208, Pitt-street, at 11 o'clock, Horses, Mares, Mail Phaeton, &c.

Mr. Armstrong.—At Wooller's Repository, opposite the Police Office, Horses, &c.

Mr. H. A. Graves.—On the premises, next door to the "Sydney Arms," Castlereagh-street, at half-past 10 o'clock, Household Furniture and Effects.

Mr. G. Pickering.—At his Mart, at 11 o'clock, Household Furniture, Crockeryware, and sundries.

Mr. Roberts.—At his Mart, 336, George-street, at 11 o'clock, Furniture, Merchandise, Drapery, Books, and sundries.

Attempt to Rob.—On Wednesday night, Mr. West, residing at Woolloomooloo, was alarmed by the barking of his dogs, and on proceeding about the premises to ascertain the cause, saw a man in suspicious proximity to a line of clothes hanging out in a paddock. He went up and collared the man, with a view of handing him over to the police, when the fellow with the greatest adroitness slipped his arms out of the coat and decamped. The coat is in the possession of the police, and in the pocket was found a certificate of freedom for one William Johnson.

The Industrial Exhibition.—His Excellency the Governor has stepped forward in support of the Colonial Industrial Exhibition, to be held in October next. He has subscribed £25 towards its funds, set apart one of the most beautiful sites of the Private Domain for its service, and stated his intention of entering the lists as an exhibitor of some specimens of his valuable stud and horned cattle. This is a step in the right direction, and will prove of the greatest practical benefit to the colony. It is a melancholy fact that the cattle throughout the colony have been deteriorating within the last five years; the "boiling-down" is now the rage, and not the improvement of the stock; and if we are to trust the statement of the carcass butchers, a fine fat bullock, such as was wont to be seen in former times, is not now to be had. Do people consider that in the breeding of stock one year of "going back" requires five years to redeem?—yet, either from their necessities, or their neglect, or their avarice to turn the ready penny, they are neglecting the improvement of their herds. In process of time, and perhaps that not far distant, we shall require "stall feeding" in the county of Cumberland to supply the Sydney market.

Port Phillip Beef, and Cod Fish.—Mr. Samuel Lyons reminds the public that he sells, this day, at his mart, at eleven o'clock, 84 tierces prime Port Phillip beef, and 15 casks cod fish.—*Communicated.*

Sale of Damaged Goods.—At the request of Mr. George A. Lloyd, we call attention to the extensive sale of alkali, Epsom salts, and candlewick, just landed, ex Achilles, and to be sold, this morning, at eleven o'clock, without any reserve, in the stores, at the rear of the City Mart.—*Communicated.*

COMMERCIAL INTELLIGENCE.

Throughout the week an average amount of business has been done. Of some articles the trade purchased freely, viz., Sugar, Rice, Rum, Starch, Ale and Porter in bottle. Holders of Pampanga and Taal Sugar are exceedingly firm, quoting £19 10s. and £20 for either, of fair quality, but refusing to operate to any extent at these rates. There is little ordinary Ration Sugar in the market: several small parcels have been closed for. In Refined goods, considerable operations are reported for shipment. There has been a good demand for Rice, and stocks have been much reduced. Starch has been taken in small lots from second hands—the only parcels on the market. Holders of imported Flour quote a high figure—ranging from £19 to £22 per ton—for upwards of 800 tons in private hands. A sale of 100 hogsheads of B.P. Rum is reported, viz., 10 O.P. at 2s 9d. As this lot does not come into competition with our remaining stock, the disposal of it gives relief to the market. Sales of upwards of 2000 dozen Byass' Ale and Porter are reported, at about 8s. 3d. from the ship. A large parcel of Bar Iron, offered at auction, realized 110s. per ton—a considerable decline from late quotations.

SYDNEY MARKETS.

Grain.—The supply of wheat to Messrs. Barker's Mill this week has been abundant, chiefly from the Hunter, which has averaged about 7s. 6d. a bushel; a few lots of very superior quality from the Illawarra district, went as high as 8s.—Sydney Flour Mills (Mr. Briellat's): Only a moderate supply of wheat has been received this week, which has gone off at previous rates, varying from 7s to 7s 10d per bushel. Three vessels have arrived from Launceston, bringing about 8000 bushels, but principally imported by the trade, will not affect the market price.—Victoria Mills (Mr. Smart's): The supply of colonial wheat arrived to the Sydney Market has been remarkably short, and prices have advanced still higher than last week's quotations, 8s per bushel having been freely given for good samples. The cargoes arrived from Launceston have not influenced the market. Maize may be quoted at from 2s 6d to 3s, but with a downward tendency. Oats (colonial) 2s 3d to 3s. Barley 3s to 3s 6d.

Flour.—The demand for flour has not been so brisk during the week, sales being only made for absolute requirement. Prices however continue firm. Mr. Briellat's quotations are, 20l for fine, and 18l for seconds, per ton of 2000 lb. Messrs. Barker's: Fine 20l, second quality 18l per ton. Mr. Smart's: fine 20l, with an upward tendency, seconds 19l. There is however a considerable quantity of imported flour—say 150 tons—in merchants' hands, which may be had a shade lower.

Bran.—5l. per ton of 2000 lbs.

Bread.—The 2 lb. loaf is selling at 5d. Biscuit at Barker's mills is quoted at 28s for cabin, and 20s for ship per cwt.; at Wilkie's bakery, cabin 28s, pilot 24s, and ship 20s. per cwt.

Potatoes.—The heavy stocks of imported now on hand have had the effect of bringing down the price to about 4l 10s the ton. Colonial, 3l 15s to 3l per ton.

Butchers' Meat.—The general wholesale price of beef is from ¾d to 1d per lb.; but a few choice carcasses were sold at a 1d and 1¼d. Mutton ¾d to 1d per lb. by the carcass.

Forage.—Hay 2l 10s to 3l 10s per ton; compressed for exportation 4l 10s. Straw 1l 10s to 2l per ton. Green food, 6d to 7d per dozen bundles by the load.

Cattle, for Slaughter.—There is an absolute glut of both cattle and sheep at present in the market, of which, while there are very few of really good quality, a large proportion consists of what may be described as middling. There is an excellent market open for a far greater number of first-rate sheep and oxen than are to be had at present. Several sales of cattle have come within our knowledge, and are as under: 32 head were bought at 2ls 3d each, 101 at 26s 6d, 253 at 30s, 80 at 33s 9d, 150 at 46s. 60 at 42s, and 100 at 50s. Of sheep 700 were bought at 4s 3d, 500 at 6s, 1200 at 6s. 9d., and 1000 not yet arrived at 6s. Calves fetch from 8s to 23s according to quality; and lambs from 5s to 6s. Pigs—small shop pigs are worth from 3½d to 3¾d, and large fat pigs from 2d to 2½d per lb.

Horses.—First-rate horses are still readily sold at fair prices. Heavy draught mares and horses are much inquired after. Unbroken and poor stock are unsaleable as usual. Mr. Stewart's sales during the week have been 82 head, at prices ranging from 2l to 12l 12s. The Arab entire horse Gleamore, imported by Mr. Hopkins, in the Lady Margaret from Calcutta, was sold by Mr. Armstrong by private contract for the sum of 150l; a Hector mare, Euphemia, for 21l; and a lot of rubbish at an average of about 40s a head.

George-street Markets.—Fowls 2s to 2s 6d, ducks 3s to 3s 6d, geese 5s to 6s turkeys, 5s 6d to 7s, pigeons 9d per couple. Roasting pigs 2s 6d to 3s each. Fresh butter 1s 2d, salt butter 8d to 9d, cheese 4½d to 5d, bacon 6d to 6½d per lb. Eggs 10d to 1s per dozen. Cabbages 2s to 3s 6d, turnips 1s 6d, carrots 1s 8d, parsnips 1s 6d, pumpkins 3s to 4s 6d, vegetable marrow 2s. per dozen or dozen bundles as the case may be. Green peas 6s to 7s, French beans 2s per bushel. Onions 7s to 11s per cwt. Oranges 3d to 5d, lemons 4d, quinces 4d to 9d, pears 4d to 1s, Apples 6d to 9d, bananas 1s, water melons 2s to 3s per dozen. Grapes 4d to 6d per lb.

NEWS FROM THE INTERIOR.

(From our Correspondents.)

BATHURST.

Suspected Sly-Grog Seller.—On Friday, the 11th instant, as chief constable Sherman and constable Finnerty, were coming towards Bathurst, from the direction of Dunn's Plains, they caught sight of Robert Hutton, alias Blind Bob, and known also by the name of the Flying Publican. Mr. Hutton was riding one horse and leading another, on which, under a quantity of sheepskins, they discovered two four-gallon kegs, one of which contained about three gallons of rum, and the other a similar quantity of wine. The chief constable seized the two horses, and the property upon them, conveying the whole into Bathurst. Hutton was armed with an old musket. One of the horses is a dark grey, with silver mane and tail, and is branded JC on the off shoulder, and JH or JN on the near shoulder. The other is a black horse, branded CL with H under on near shoulder, also EN. A new hogskin saddle (of English make, with colonial flaps) was also taken, and is remarkable from a long spur mark, apparently as if some person had been thrown, and the rowel of the spur had scraped from the middle of the seat downwards for nine or ten inches. The horse Hutton was riding has since been restored to him, but the other horse, with the remainder of the property, is still in the possession of the police.

Stabbing.—On Thursday last, a man named Thomas Regan, who was working in the neighbourhood of Pepper's Creek, stabbed a woman named Bond in the hand with a pointed knife. The wound was a serious one, nearly going through the thick part of the hand, and bleeding very freely. He shortly after stabbed a man called Mountain Mack, and also a man belonging to Mr. Lewis, but we understand not seriously. Immediately information came into Bathurst, a mounted constable was despatched after Regan, but he had made his escape, and has not as yet been apprehended. Regan is the man who stabbed himself at Mulvey's public-house at the time of the Bathurst races, which case was reported in the *Herald* at the time. It is conjectured that he cannot be altogether in his right mind, as no provocation appears to have been given.

State of the Gaol.—On Tuesday, the 15th instant, the state of Her Majesty's Gaol was as follows:—committed for trial, 16 males, 1 female; other stations, 2 males; hard labour on the roads or public works of the colony, 1 male; imprisonment with hard labour, 21 males, 10 females; confines, 10 males, 4 females; in default of bail, 2 males; remanded, 1 male; children of female prisoners, 8. Total—53 males, 15 females, 8 children.

WINDSOR.

Police Court.—*Saturday*: Before Mr. R. Fitzgerald, J.P., M.C.—Margaret Stanfield was placed at the bar, charged with having stolen some pieces of print from Mrs. Charles Eather, of George-street, Windsor; she was remanded for further evidence. *Tuesday*: Before Messrs. Scarvell, Ascough, and Tuckerman, J.P.s.—Margaret Stanfield was again placed at the bar; the charge was fully proved against her, and she was committed to take her trial at the ensuing Quarter Sessions at Parramatta.

Applications for Licenses.—There were thirty-six applications from Windsor and the district, all of which were granted, with the exception of three in the town of Windsor; these having been objected to by the chief constable, were ordered to stand over until Saturday.

The Races.—This being Passion week, Windsor is of course very quiet, but we believe we are correct in stating that the races next week will far exceed any that have taken place at Windsor for a length of time; both on account of the number and quality of the horses, which we believe are almost all first-rate. There will also be a greater concourse of visitors from different parts than has been known for a long while back.

Burton's Circus.—Mr. Burton opened his Circus on Thursday evening last; since which his performances have delighted and astonished the public. The consequence has been, that he has drawn full houses every night, and it is not likely that his performances will fail in their interest.

The Weather.—The warm weather continued with us till Sunday morning, when it turned very cold, and continued so over Monday. Tuesday was rather mild; towards afternoon a heavy thunder-cloud gathered in the south-west; but, as is generally the case, it divided itself upon approaching Windsor, one part of it taking a south-easterly, and the other taking a north-easterly direction. On Wednesday the cold returned, and we were visited with a slight thunder-storm, accompanied with a fair shower of rain. We had also a sprinkling of rain during the day, which continued at intervals till sundown. This day (Thursday) is very cold, with frequent showers from the south-east. We are sorry to state that bread in Windsor has risen to 4d. the 2lb. loaf.

The New Bridge.—We had almost forgotten to congratulate the inhabitants of Windsor upon the pleasing fact that Government have at last declined all responsibility or connexion with the erection of this bridge; and have paid the £1000 over into the hands of the Road Trust. We may therefore confidently expect that the work will shortly be commenced.

STEAM TO AUSTRALIA.

TENDER TO GOVERNMENT FOR ESTABLISHING A STEAM COMMUNICATION WITH AUSTRALIA, IN COMBINATION WITH OTHER NEW LINES IN THE EASTERN SEAS, &C.

(From the Report of the Directors of the Peninsular and Oriental Steam Company.)

The particulars of the proposal made to the Government for the above object, on the 22nd January last, in consequence of the public advertisement issued in the month of November, 1849, were laid before you in the last half-yearly report.

Since then, that proposal and the proceedings of the Government in respect to it have, as you are aware, become the subject of much discussion, both in Parliament and by the public press.

It can hardly create much surprise that such a proposal should have encountered a determined opposition, in quarters and among parties with whose interests and views it might be considered to interfere, and that in consequence much misrepresentation should have gone forth upon a subject of so much public importance.

The discussions, however, both in and out of Parliament, have led to the satisfactory result of eliciting such facts relative to this question, as can hardly fail to convince every disinterested or impartial mind that the proposal made by your directors combines greater public advantages than it has fallen to the lot of any other private enterprise to offer, and that its intrinsic merits are such as can scarcely fail to ensure its being adopted.

Two of Her Majesty's Cabinet Ministers, whose departments are chiefly concerned with it, the Chancellor of the Exchequer, and the Secretary of State for the Colonies, have publicly recorded their opinion that the tender of this company is "a most advantageous offer for the public," and that they "are most anxious to adopt it."

After such a declaration, and looking to the urgent demands of the Australian colonists for the prompt establishment of a steam communication with the mother country, together with the expressed willingness of the directors at once to carry out that communication, and to postpone that part of their plan which has occasioned the difficulty with the East India Company, your directors cannot believe that any difficulties of an ordinary nature will be permitted to delay much longer a measure recognised by such high authority to be so advantageous for the public interests.

As far, however, as the pecuniary interest of this company is concerned, the directors feel that the acceptance or refusal of their offer to establish a steam communication with Australia, *viâ* Singapore, is of comparatively little importance. But, with the desire to meet the so long and anxiously expressed wishes of these important colonies, they considered it right to offer all the advantages which the present position of the company affords, in order to remove the financial difficulty which they understood to be the chief obstacle, on the part of the Government, to the effecting of the desired measure.

In submitting the plan and proposal in question, the directors conceive they have removed that difficulty. But they consider that the terms proposed present more immediate advantage to the public than to the company, and that it would be equally, if not more conducive to your interests, if some other parties, possessing the means of ensuring its efficient development, could be found to undertake the enterprise; because such an arrangement could not fail of being beneficial to this company, by increasing the traffic on its established lines, while it would be exempted from the risk of loss, which almost invariably attends the opening of a new line of ocean steam communication.

SUMMARY OF ENGLISH NEWS.

(From the Home News, December 24.)

Her Majesty and the Royal Family were all in good health. The influence of the Christmas season had been felt at Windsor Castle in its cheerful mirth and quiet enjoyment.

The English funds showed considerable firmness on the 23rd. Consols for the opening, which left off on the previous Saturday at 96⅞ to ⅞, opened at 96⅞ and steadily advanced to 97 and to ⅛, at which they closed.

With respect to the Papal Aggression, meetings were still being held. At the Surrey County meeting Sir Edward Sugden declared distinctly that the act forbidding the introduction of bulls into England, (13th of Elizabeth) and denying the Queen's supremacy, was not affected by the minor relief of the act of 1847, which only repealed the severer penalties of the ancient act. In this view of the case the position of Dr. Wiseman would be somewhat perilous, if, as Sir Edward Sugden suggests, it will be the duty of Parliament to restore the penalties, and that such restoration cannot be regarded as an *ex post facto* law.

In the counties of Cumberland and Cambridge, Norfolk and Worcestershire, there had been anti-aggression meetings of very decided character. In the first, the Roman Catholic opposition was led by Mr. Philip Howard, M.P., who spoke boldly in favour of an amendment, and found some supporters. Sir Edward Blount spoke strongly, nay energetically, on that side at Worcester, and had able followers; but the opposition in both instances was absolutely overwhelmed by the tide of popular feeling.

At a meeting at Hereford, Mr. De La Barr Bodenham, of the ancient house of Rotheway, moved an amendment avouching readiness to support the Queen's authority against all aggression, intrigue, and manœuvring, to the end of her life. He said he was a Roman Catholic, but not a Papist, and was surprised to hear any gentleman apply to him such a term of opprobium. 140 hands were held up for his amendment, and 600 against it. We need not add that the original resolutions were carried.

In Norfolk, the Dissenters were quite ready to support the Church and the resolutions. In Nottingham, the Puseyites were the chief objects of attack, and the Rev. George Cuthbert especially remarked concerning them:—"Those men of intellect, learning, education, and naturally gifted besides, were gone to the bottomless pit!" A voice in the crowd, or among the reporters, called out, "Shame, shame;" but Mr. Cuthbert, turning, added, with a severe expression—"It is no shame, my young friend; the man who denies the truth must burn in the bottomless pit. I say, let the press keep up her name. Let her not stand in the way of the Lord. I say to my young friends, beware of those pretty processions and those other subtle inventions that are brought forth to entrap your precious young souls, and fly to the Throne of Grace." These sentiments were rapturously applauded. Both have again been visited by Lord Ashley, who has not failed to rouse the spirit of the laity of the Church of

England. Meanwhile, a deputation of the Roman Catholic nobility and gentry have waited on Cardinal Wiseman, with an address of welcome to him, and thanks to the Pope for the establishment of the hierarchy; and what is singular at such a time, several distinguished persons, among them Mr. Monsell, M.P., the newly-elected Irish member and his lady, Lord and Lady Camden, Lord Nigel Kennedy, and others, have adopted the religion of Rome.

The Right Hon. Dr. Lushington, Mr. Falconer, and Dr. Twiss, of Doctors Commons, are appointed arbitrators to determine the boundary between the provinces of Canada and Nova Scotia, which has been for some years in dispute.—The advancement of Vice-Chancellor Rolfe to the peerage, under the title of Lord Cranworth, is an honour not more deserved by that eminent judge for his excellence as a lawyer than for the dignity and worth of his personal character; and it would be difficult to name a man in this country whose rise has been more steadily accompanied by the respect of the public and the esteem of his profession. Lord Cranworth's attainments qualify him in a peculiar manner for the duties of an Appellate Judge; but we are at a loss to perceive how his services can be transferred to the House of Lords and the Privy Council without subtracting too much of his time from the Court of Chancery; and there is an inconsistency in the same individual sitting as the junior Vice-Chancellor in one place, and possibly as sole supreme judge of appeal in another. Of the law peers who have for the last ten years carried on the legal business of the House—Earl Cottenham, Lord Lyndhurst, Lord Denman, Lord Brougham, Lord Langdale, and Lord Campbell—none, we fear, remain in full vigour and activity except the two last, who are engrossed by other judicial occupations. Baron Parke has long enjoyed so remarkable a distinction among the common law judges of our time, by his seniority, by his profundity as a lawyer, and by his grasp of intellect, that, if Westminster-hall were to elect a chief Judge of Appeal, he would certainly be the man. In the Privy Council he has taken an active part in appeal business since the creation of the Judicial Committee; but his services are at least equally essential to the House of Lords, and, though we place no reliance on the reports in circulation, it is impossible that claims so obvious and commanding should be overlooked whenever the learned baron retires from the Court of Exchequer. But we even exclude from the highest service of the law men who are indisputably best fitted to discharge it, because they do not wear the badge of party allegiance; and thus it is that whilst party raises a Lord Truro to the head of the Court of Chancery (unacquainted with its practice, hesitating in its business, and overwhelmed by its arrears), it leaves the two first equity lawyers of their time—Sir Edward Sugden and Mr. Pemberton Leigh—to spend their lives in inglorious ease, far from the courts which they are best qualified to instruct and to adorn.

We hear that a new Company, for the purpose of establishing a system of steam navigation between Plymouth and the East Indies, is already determined on by influential capitalists.—*Railway Record.*

THE QUEEN'S FIRST VISIT TO THE EXHIBITION PALACE.—Her Majesty and Prince Albert came to town from Windsor Castle yesterday, and visited the Crystal Palace of the Exhibition of 1851, in Hyde Park, returning in the afternoon to Windsor. At 11 precisely, the workmen were gathered in a crowd about the entrance, and the Queen's carriage came up amid loud cheers and other demonstrations of hearty loyalty. This was her Majesty's first visit to the works, and her expressions of hearty admiration were frequent. Her Majesty's attention was particularly drawn to the men employed upon the transept; and while Her Majesty was on the ground the first panes of glass were fixed in this part of the building. On leaving the ground, after a stay of an hour's duration, the royal party were loudly cheered by the workmen. After the departure of her Majesty, Lord Granville climbed to the highest scaffolding in the building, with the object of getting a view of the entire works; other eminent men have, in their enthusiasm, we are informed, dared the giddy height, and defied the muddy ladders. On September 20th the first column of the building was fixed in its place, and on the 20th of this month the contractors have determined to fix the last; on this day also the last girder will be fixed, and, after a few days' labour on the part of the glaziers, the great structure, to all external appearance, will be finished. On the 31st, as we already stated, the Society of Arts have been invited to hold a meeting in the building; we may add, that an eminent professor of mechanics, of the King's College, London, will read to the meeting a scientific lecture on the mechanics and economy of the building. The rooms erected near the transept, for the Royal Commissioners, are commodious as well as numerous.

ST. ANDREW'S CATHEDRAL.

A PUBLIC MEETING of the Subscribers to the Cathedral Building Fund, and of Members of the Church of England favourable to the object, will be held in the Infant School-room, in Castlereagh-street, on Tuesday, the 22nd instant, at seven o'clock P.M., for the purpose of receiving from the Committee a report of their proceedings during the past year, and making further arrangements for the continuance of the work. The Right Reverend the Lord Bishop of Sydney will preside.

A SERMON will be preached in St. James's Church, on Monday evening, the 21st instant, by the Rev. THOMAS JACKSON, D.D., Bishop designate of Lyttleton; after which, a collection will be made in aid of the funds.

J. WILLIAM JONES, Honorary Secretary.

NEW STRAWBERRY.

STRONG Plants of MYATT'S BRITISH QUEEN STRAWBERRY, a superb and unique variety, are now ready for sending out. Price 7s. 6d. per dozen, or 50s. per 100.

Other varieties, from 1s. to 2s. 6d. per 100.

T. W. SHEPHERD, Darling Nursery, Sydney.

N.B.—Extract—The first attempts to combine quality with size in strawberries were mere *abortions*, partaking too much of the coarseness and hollowness of the old Chile kind; such was Wilmot's superb; but thanks to the perseverance and enterprise of Mr. Myatt, of Deptford, we have now attained that which was so long a desideratum. His British Queen, as it is one of the largest, so it is one of the best varieties which have ever been raised. —*Paxton's Magazine of Gardening and Botany, No. 12, page 362. London, January, 1850.*

SPECTACLES.

WHEN the healthy powers of Vision begin to fail, all persons feel a tender and anxious concern to perpetuate the enjoyment we find to be so intimately dependant upon the uninterrupted exercise of sight, and are instinctively led to seek for a remedy. To those, therefore, who require optical assistance BRUSH AND M'DONNELL wish to state that they have Lenses of every focus, suitable for every sight, and they can guarantee to them a degree of ease and comfort in the wearing of their Spectacles not usually attainable.

BRAZILIAN PEBBLES.

Both *convex and concave*, of every number. Pebbles have the following important advantages—they are of equal density, and are exceedingly hard, firm, and clear, their surfaces never become scratched or misty, are of a pure and cool nature.

PERISCOPIC LENSES.

In pebble and crystal. These peculiar spectacles were invented by the celebrated Dr. Wollaston, in order to allow considerable latitude of motion to the eyes without fatigue. This is effected by the lenses being of a meniscus or concavo-convex form; the concave side being turned towards the eye.

NEUTRAL TINT GLASSES.

There are few in this climate who do not occasionally require spectacles with coloured glasses to protect their eyes from the painful glare of the sun. For this purpose the neutral tint, or twilight glass, is much approved of, and is very agreeable to the eye when in use, and when removed it leaves the vision undisturbed by the flickering and confused halo so often complained of when wearing badly coloured glasses. Blue and Green Glasses in great variety.

Persons who have their own spectacle frames can have them well fitted with

FINE CRYSTAL SIGHTS

Of unequalled clearness; or, if preferred, with Brazilian Pebbles, at a very moderate expense.

Telescopes fitted with Object Glasses, and carefully repaired.

Very neat Pocket and Ship Telescopes, Compasses, &c.

WEDNESDAY, 30th APRIL.

A VALUABLE ESTATE AND HOMESTEAD—"SANDAL FARM."

On Prospect Creek near Lansdowne Bridge, on the Liverpool Road, and within seventeen miles of Sydney, and three miles from the Town of Liverpool, containing 160 acres of land.

MR. SAMUEL LYONS
Is instructed to sell by public auction, at his Mart,
On WEDNESDAY, the 30th day of April,
At 11 o'clock precisely,

ALL those 160 Acres on the Banks of Prospect Creek, situate near the junction of the Liverpool Road with the Dog Trap Road, at Lansdowne Bridge, within seventeen miles of the city of Sydney and three of Liverpool.

To give any thing like an adequate description of this really valuable and romantic spot would far exceed the limits of a newspaper advertisement, and the Auctioneer is reluctantly compelled to offer only a brief outline of this unique little property.

The Estate, with the exception of a very small strip, consists of excellent light clayey soil, fit for every purpose of agriculture or horticulture, about fifty acres of which have been cleared and stumped, and are under cultivation—forty acres more have been cleared, ten acres are now in a high state of cultivation, and about eight acres of orchard, containing all kinds of fruit trees of the best and rarest description and in flourishing condition; the remainder of the land is capable of the highest cultivation, being now covered with excellent iron bark timber, and would be the very thing for a model cotton plantation.

On the premises there is a dwelling-house, containing five rooms, with detached kitchen, plastered on the inside and shingled. A cottage or garden house, with two rooms, built of slabs and shingled, and an excellent shed, well shingled, capable of containing twelve tons of hay.

The property is bounded to a considerable extent by the Prospect Creek, which here flows in meandering beauty to George's River, which it joins about a mile or two below the farm. The creek abounds with fish of every description, and a never-failing supply of excellent fresh water is close to the house.

Taken as a whole, there does not exist at this moment a more desirable spot, whether to settle quietly down in the calm enjoyment of easy competence, or as a speculation, which, with prudent management, would bring a sure fortune to the fortunate purchaser, and as it will be positively sold, intending purchasers should inspect the premises, and judge for themselves.

THE TITLE IS FIRST-RATE, commencing with a Grant from the Crown, and no quit-rent.

☞ A plan is on view at the Mart.

, For further particulars apply at the Office of Messrs. Dunsmure and Longmore, Bligh-street.

MR. LLOYD has the pleasure of informing parties desirous of purchasing villa sites and building allotments at Balmain, that the proprietor of the only eligible block of land likely to be offered for sale in the vicinity of Waterview Bay has determined upon submitting the same to public competition.

This property for sale comprises about seven acres; and has been subdivided (as per plan on view at the auction rooms), into several eligible allotments running up William-street from the waters of the bay to the main road from the ferry.

The many advantages offered to residents at Balmain are now so well known and appreciated as to render any remarks from the auctioneer superfluous, being unquestionably the most healthy, agreeable, and convenient situation possible for any parties whose engagements require their regular attendance in town.

It is at present let to Mr. Lockhart, and others, for about £102 per annum.

THE GEORGE-STREET FRONTAGE
